

Lightly Treading Community Newsletter

February 2010

February's Green Fact:

Recycling saves energy: Creating a new aluminum can from scratch takes 95% more energy than making a can from recycled aluminum.

Difficult Item to Recycle? Try Earth 911

A Recycling Widget that can tell you where to recycle that motor oil, metals or electronics. Learn more [here](#) or visit earth911.com.

REEP + Efficiency First.

The Retrofit for Energy and Environmental Performance (REEP) program has been passed by the House of Representatives as part of the Waxman-Markey climate bill. Before the legislation can be sent to the White House for a Presidential signature, the Senate must pass its own version of the bill. Senators in particular need to get the message that REEP will reverse the employment crisis in construction and related industries while lowering energy costs for American consumers. See EfficiencyFirst.org.

"Greenest," "Meanest," "Greener Choices,"

Highlighting the year's best-in-class list of Green Cars, the greencars.org website features informational write-ups on model year 2010 highlights, a consumer primer on vehicles and the environment, and advice on how to buy green when shopping for a new car or truck.

More Renewables from Utilities?

"Under current state law, investor-owned utilities in Colorado must get 20 percent of their power from renewable sources such as wind, solar and geothermal by 2020. However, if a bill introduced by Representative Max Tyler wins state legislative approval, that figure would jump to 30 percent by 2020, with at least 5 percent coming from smaller "distributed" sources." From Colorado Energy News reported by Ann Rascalli. Read the full article [here](#).

Upcoming Community Events

[Efficiency First](#) – Upcoming meetings dates are found below.

February 25th, Thursday

5:00 pm Meet & Greet

6:00 pm EF CO Meeting

Location: [Standard Renewable Energy](#)

5757 Arapahoe Avenue Unit C2, Boulder, CO 80303

303.562.2752

March 25th - CSU Campus

April 29th – Denver, at Lightly Treading Office

May 27th – Berthoud, at Energy Logic Office

Footprints Radio
